

## grinding media chute KRA, KRW for drummills

### grinding media chute KRA and KRW with module units ASW and MVA

**discharging product & grinding media from drummills**

#### (a) grinding media chute KRA-A25

For unloading entire batches with soft grinding media catch. Media guide through web strips, media brake-console with soundproofing. Inclination angle and ball sorting adjustable, spray bars for insitu grinding media cleaning. Splash and impact protection.

#### (b) deposition sieve tank ASW-190

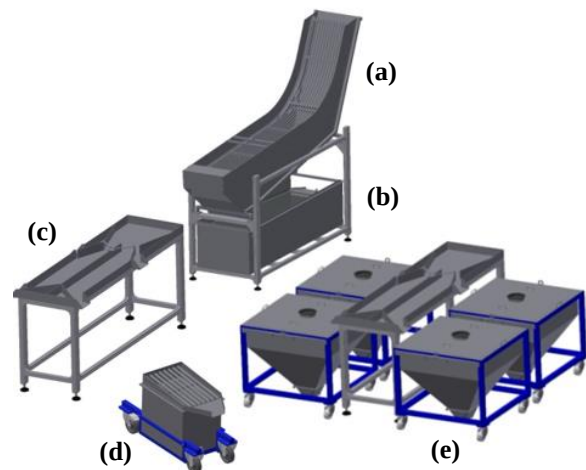

Adjustable perforated/sieve trays for product and slurry, large settling volume, flushing device and splash protection. Slurry pump and slurry collection tank.

#### (c) grinding media sorting unit MVA-4-25

Inclination angle and ball sorting adjustable, quad-ball-outlet, in this case to Mobile Containers FB500a (e).

#### (d) grind. media chute on mob. cart KRW-NAPW50

Mobile unit for retrofitting existing mills, in this case up to unit size 5.
